About Us

A Modern Political Consulting and Public-Opinion Research Practice

At the **Centre for Political and Civic Research (CPCR)**, we believe that successful political campaigns are grounded in a deep, evidence-based understanding of the electorate. Guided by our core philosophy, “**The 360° View of Public Opinion**,” we empower political leaders and organizations with a comprehensive, ground-level perspective of public opinion.

We are a modern political consulting firm staffed by veteran professionals in election strategy, voter research, and campaign management. Our work transcends surface-level data to capture the nuanced opinions of the electorate through rigorously crafted surveys, in-depth opinion polls, and comprehensive on-ground research. By engaging with diverse voices across regions, communities, and demographics, we uncover the undercurrents that shape voter behavior.

We transform real-world data into actionable insights that sharpen messaging, refine campaign strategy, and ensure resources are allocated where they will achieve the greatest impact. Every piece of advice we provide is anchored in rigorous evidence, accuracy, and ground-level realities—eschewing guesswork and conjecture.

At the **Centre for Political and Civic Research**, we go beyond mere analysis of public opinion—we connect the dots to offer a true 360° perspective that drives informed decision-making, enhances campaign effectiveness, and delivers measurable electoral victories. As your trusted advisor, we are dedicated to building political campaigns rooted in clarity, credibility, and strategic insight.

The 360° Campaign Ecosystem

An Integrated Model for Research, Influence, and Execution

Why integration matters

Research, communication, and execution must reinforce one another.
A unified system turns voter insight into field action and message discipline.

Core outputs

Constituency intelligence
Targeted messaging
Mobilization plans

Use cases

Candidate positioning
Narrative control
Turnout optimization

SURVEY

Scientific Survey Research for Constituency-Level **decision support**

Surveys are among the most effective tools for understanding the real political condition of a constituency.

They help capture voter sentiment, local issues, and political inclination at the ground level.

Survey outputs can reveal caste and community dynamics, panchayat-wise winnability, male-female voter ratios, and opponent strongholds. These insights help leaders finalize a clear, data-driven election strategy.

Scientific Survey Methodology

- Caste & community dynamics
- Male–Female voter ratio
- Panchayat-wise representation
- Balanced demographic sampling

Survey Report Helps You Understand

- Panchayat-wise winnability
- Caste-wise support / voter inclination
- Opponent's strong Panchayats & communities
- Overall winnability & key focus areas

Accurate Ground Data → Clear Strategy → Focused Campaign → Electoral Advantage

Survey Methodology

A structured quantitative workflow from sampling to validated insight

COLLATING CASTE & DEMOGRAPHY DATA RETRO DATA ANALYSIS

Analysis of the last three election results is conducted to derive caste-wise and demographic insights. This forms the foundation for accurate voter profiling at the Assembly Constituency

DATA COLLECTION (FIELD & CATI)

Voter opinions are collected through a mix of field surveys and CATI calling. Ensures coverage across diverse voter segments and geographic regions.

INFLUENCER CALLING

Key stakeholders at **village** and block levels are interviewed. Provides insights on influence patterns, local demands, and ground narratives.

RANDOM STRATIFIED SAMPLING

A **scientifically stratified sample** (2000–3000 respondents per AC). Based on age, gender, caste, and demographics for balanced representation.

DATA VERIFICATION

25% of collected data is verified **within 24 hours**. Conducted through a dedicated calling team to ensure accuracy.

DATA ANALYSIS, NORMALISATION & REPORTING

Data is analysed across multiple parameters and normalised. Delivered in a clear, decision-ready format for strategic use.

Qualitative Research

Understanding the motivations behind voter behavior

Qualitative research is the most effective tool to understand the real on-ground sentiments, perceptions, and lived experiences of stakeholders.

Our qualitative surveys help uncover deep-rooted issues, motivations, and behavioral drivers that quantitative data alone cannot capture. These insights play a critical role in shaping clear, evidence-based strategies and informed decision-making.

QUALITATIVE REPORT HELPS YOU UNDERSTAND

- Community perceptions & local issue priorities
- Stakeholder attitudes & **behavioral patterns**
- Influence networks & opinion leaders
- Area / group-wise sentiment strength
- Risk zones, opportunity areas & focus segments

SCIENTIFIC QUALITATIVE METHODOLOGY

Open-Ended Interactions

- One-to-one, conversational engagements

Focus Group Discussions (FGDs)

- Moderated group discussions

Key Informant Interviews (KIIs)

- Interviews with experts, leaders & stakeholders
- High-value, experience-driven insights

Exploratory Issue Mapping

- Identification of emerging, hidden & sensitive issues
- Helps structure themes before large-scale studies

Voter Calling

Fast, scalable voter intelligence through direct contact

RESULTS

Voter Trends Identified → Key Issues Highlighted → Tactical Actions Implemented

Social Media Strategy

Strategic narrative control and digital influence across the campaign lifecycle

Core Philosophy

Social media is a critical battleground for shaping voter perception, influencing sentiment, and countering misinformation in real time.

Our approach integrates clear messaging, disciplined narrative control, and wide digital penetration to ensure consistent and impactful communication across all voter segments.

Strategic Framework

Outcome: Stronger Digital Presence → Narrative Control → Higher Engagement → Voter Influence

Strategic Outreach

A phased plan for voter engagement and persuasion

TARGETED, PHASED OUTREACH ENSURES EFFECTIVE VOTER ENGAGEMENT

Our outreach is designed in three phases to systematically engage voters, build anti-incumbency sentiment, and deliver the campaign message effectively. A dedicated campaign manager coordinates end-to-end execution.

Outcome: Sustained engagement → Increased support → Maximum vote conversion

Campaign Management

From planning and logistics to real-time monitoring and crisis response
